AND COMPANY, INC.

An Amwins Company

Why Woodus?

Since 1984, Woodus K. Humphrey & Company, Inc. (Woodus) has been providing tailored property and casualty insurance coverage for woodworking facilities throughout the United States. While our main office and service staff are in Shreveport, LA, our field representatives around the country provide loss control, engineering, and underwriting services.

Our extensive knowledge and expertise in the woodworking industry allow us to provide our clients with:

- A holistic market view by providing multiple market options and quotes
- Tailored insurance programs to meet the unique needs of this niche market
- Value-added services that make the agent's and insured's jobs easier

Our Programs

FOR RISKS
OVER \$25M TIV

PRMA Lumber and Wood Program

Woodus has partnered with the Property Risk Management Association (PRMA) to offer the PRMA Lumber Program. In conjunction with non-admitted A- through A+ rated carriers, this program provides blanket All Risk Property coverage up to \$250M in value and offers the best forms and sublimits in the Lumber niche.

FOR RISKS
UNDER \$25M TIV

Woodworking Operations

This national program focuses on property and casualty insurance for woodworking plants and operations. Coverages available include Package, General Liability, Property incl. Business Interruption, Commercial Auto, Inland Marine, Boiler & Machinery, Equipment Breakdown, and Umbrella.

NEW! Sidecar Program

Looking for help on mulch, pallets or risks with losses? Our sidecar program provides a solution for tough-to-place classes and small risks. You can count on us for quick decision-making (to accommodate any last-minute renewal surprises), wraparound services like loss control, and help layering primary, excess or quota-share accounts

Amwins by the Numbers

Carrier/MGA relationships

Value-Added Services

Property Preservation Inspection: Once coverage is placed with Woodus, we diagram the risk's premises and produce comprehensive original surveys for carrier and agency use. We conduct property preservation inspections one to four times per year, depending upon the occupancy and protection of the risk.

Why are inspections beneficial?

Inspections bring value to your clients, in addition to carriers, by helping to control potential losses. Our loss control representatives have a combined 80 years of experience in loss control specific to the wood niche.
