## Our Experience

The Amwins Energy team has a wealth of experience, knowledge and ability, which is needed more now than ever to ensure clients get the best deal and service available. We have deep knowledge and experience placing refining, processing, manufacturing and generation facilities throughout the world in our Downstream Energy and Power Generation team, from small single locations to large multi-national corporations.

At Amwins, our downstream energy policies are bespoke and tailored from the ground up to meet the unique and individual needs of each client.

## Our Service

We explore all ways of placing the correct policy for each client which could mean packaging and bundling covers together or deconstructing a policy and exploring specialist individual policies, or a mixture of the two.

We work in the traditional indemnity market and also work closely with underwriters in the parametric market.

We work with underwriters around the world to explore all possible options to ensure our clients receive the best service available.

### Industries that we work with include:

- Refining
- Gas Processing
- Liquid Natural Gas
- Petrochemical
- Fertilizers
- Biofuels
- Plastics
- Chemicals
- Tank farms and Terminals
- Pipelines
- Power companies
- Renewable Energy
