Architects and engineers, along with other design professionals, operate in highly specialized, technical environments with little room for error. Nevertheless, as design and construction tools and technologies constantly evolve, mistakes and miscalculations are bound to happen.

The Architects & Engineers (A&E) program offered by Amwins Program Underwriters (APU) is designed to keep up with the changing requirements of this highly regulated space. Backed by an A.M. Best rated “A+, XV” carrier, APU’s program provides professional liability coverage for firms that generate revenues of \$750K or more.

Our experienced underwriting team leverages the strength of Amwins and other industry relationships to provide competitive rates without sacrificing crucial coverages. In addition to superior service and claims support, the program offers flexible coverages that can be tailored to meet the needs of a specific firm.

Target classes

- Architects
- Engineers
- Other design professionals
- Agency construction managers

Availability

- Admitted state filings are pending. In the interim, we are writing on a non-admitted basis in all states, except Florida, where coverage for firms isn’t available.
