

# Public Entity Casualty Program

Our **Amwins Underwriting Public Entity Programs\*** include flexible liability and worker’s compensation coverage that is purpose-built for the evolving landscape of public-sector risks.

## Program highlights

- Liability written as follow-form excess or reinsurance. Workers’ compensation currently only written as reinsurance.
- Significant underwriting and claims bench strength
- Written on AM Best “A-” paper and backed by a panel of sophisticated, well-capitalized global carriers with experience in the public entity space

## Eligible classes

Our program focuses on pools (or state equivalent) but can also evaluate individual risks.

Classes	Liability	Workers’ Compensation
Public schools (K-12), including charter schools	✓	✓
Special service districts, including park districts	✓	✓
Public housing authorities	✓	✓
Nonprofits	✓	✓
Community colleges	✓	✓
Higher education		✓
Municipalities – Villages – Counties – Townships – States – Cities – Tribal	✓	✓

## Limits

- **Liability:** up to \$5,000,000 per occurrence-GL, AL, POL, SBL, LEL, EPL, EBL
- **Workers’ Compensation:** up to \$2,000,000 per occurrence

## Minimum premium + attachment

- \$200,000 GWP per account (share)
- \$100,000 Minimum attachment per occurrence

## Structure flexibility

- Can write 100% of shorter layers or shared and layered on larger limits.
- Can evaluate unique structural options such as annual aggregate deductibles and other features to help achieve premium targets.
