

## Radically Simple, Per-Load Cargo Insurance

Millions of uninsured and underinsured loads are transported across the U.S.—and around the world—every day, representing a massive liability to the clients you serve and a threat to their cash flow.

**Give them instant peace of mind—and get them back to the business at-hand—with Loadsure, now offered through Amwins Specialty Logistics Underwriters.**

### Insurance. Simplified.

As an Amwins broker partner, you can now deliver Loadsure's all-risk, per-load smart coverage. And, with policies dynamically priced to match your customers' loads, you'll help them save as much as 80% on their transactional cargo insurance costs.

What can Loadsure deliver to your clients?

- Instant quotes—right from our platform
- All-risk and per-load smart coverage in less than 40 seconds
- Fast, fully digital claims processing
- Accelerated claims settlements—in just minutes, not weeks or months
- Digital claims payments—in minutes, on average

### Cargo coverage your clients can count on

Relying on carrier liability policies alone leaves shippers dangerously exposed, while slow-moving traditional, per-load coverage costs brokers and carriers business on the spot market.

With Loadsure, you and your clients can quickly access a full range of all-risk, domestic and international cargo coverage — up to a \$2M limit for any single mode of transport and a \$100,000 limit for LTL shipments — for a low, per-shipment fee.

Your clients can rely on:

- Door-to-door coverage—including unattended vehicle, loading and unloading damage, and acts of God
- Broadest commodities coverage available—including alcoholic beverages, frozen and chilled produce, over-the-counter pharmaceuticals, fireworks and more
- Claims settled based on the full invoice value of their cargo
- A-rated, “all-risk” insurance

“Loadsure bridges the transactional insurance gap with a user-friendly solution that empowers our clients to get the per-load coverage they need.”

– Alex Rosas, executive vice president,  
Amwins Specialty Logistics Underwriters

## Protecting client business has never been easier

Loadsure is—hands-down—the simplest cargo insurance solution on the market.

Powered by AI and automation, our real-time digital underwriting delivers the accurate, affordable transactional insurance that’s simply not achievable through traditional processes. That means you and your clients can immediately and affordably cover shipments—keeping the clients critical to your business happy, while giving you more time to nurture relationships and build your book of business.

What’s more, Loadsure’s automated risk management enhancements and use of analytics not only differentiate you from the competition—they empower you to deliver added value, so you don’t have to sell solely on price and coverage.

*Loadsure is recommended, offered, and sold by Amwins Specialty Logistics Underwriters. Underwritten by various syndicates at Lloyd’s.*
