

Project Cargo

Amwins Underwriting Inland Marine Capabilities

Amwins Program Underwriters offers a large, comprehensive project cargo solution to support high-value, complex projects in the cargo & rigging insurance market. We understand your clients' unique needs: we crafted coverage that can be tailored for specific aspects of the supply chain, as required by contract. This program is designed to manage risks throughout the lifecycle of large-scale projects, from manufacturing to final delivery.

Coverages

- Physical loss or damage to cargo during transit
- Riggers and installation coverage
- Delay in start-up (DSU) protection
- Advanced loss of profits (ALOP) coverage
- Capacity to look at primary or excess coverage
- Need physical damage/inland marine coverage?

[Explore our robust Contractors' Equipment program](#)

Limits

Up to \$300,000,000 USD

Carrier

Non-admitted, AM Best rated "A+" (Superior), XV

Minimum premium

Our minimum premium is \$50,000; however, we're open to structuring terms as needed based on the specifics of the risk.
