Control of Well

Amwins Program Underwriters' (APU) Oil & Gas insurance program provides unique Operator's Extra Expense (Control of Well) coverage for upstream oil and gas accounts across North America. Regaining control of a well can be an expensive process, including pollution, clean-up, re-drilling, and restoring the well back to operation. APU's Oil & Gas program will ensure your clients are properly covered.

Program highlights

- In-house underwriting authority for faster turnaround
- Lowest minimum premiums in the industry starting at \$5,500
- Lowest market deductibles starting at \$50,000
- Limits:
 - \$30M - Control of Well
 - \$5M - Care, Custody and Control
 - Higher limits available
- Generous commissions
- Non-admitted policy for broader coverage and flexibility

Coverage

- Control of Well
 - Re-drilling Expense
