A premier provider of insurance to the recycling industry

RecycleGuard history

For over 25 years, the RecycleGuard insurance program has been a leading insurance provider to the recycling industry. Whether it's metal, plastic, glass, paper, rubber, textile, electronics or a combination of them all, RecycleGuard offers superior insurance coverage options to safeguard recycling businesses nationwide.

RecycleGuard has been endorsed by the Institute of Scrap Recycling Institutes (ISRI) since 2000. Several providers have come and gone, while RecycleGuard has remained committed to the industry. This commitment has also been demonstrated over the years through RecycleGuard's support of the ISRI Annual Convention and safety initiatives.

Created for the recycling business by those that know it best, the program's dedicated and experienced underwriting team has resolved over 20,000 scrap yard losses and has completed over 4,500 risk management visits to scrap yards.

Turn to RecycleGuard for exceptional client service and a comprehensive insurance solution to meet the needs of your client's recycling operation.

What sets us apart?

- Over 25 years of industry experience and knowledge
- The only ISRI sponsored property & casualty insurance program
- Dedicated claims team that has resolved over 20,000 scrap yard losses
- RecycleGuard provides coverage to over 50% of the scrap industry
