An insurance program designed to meet the unique exposures of the trailer manufacturing and truck aftermarket industries

If your client is engaged in the business of manufacturing, assembling or installing truck equipment or in the specialty vehicle or truck aftermarket, there's one insurance program that's well equipped to handle all of your insurance needs, Amwins Program Underwriters' Trailer & Work Truck Manufacturers program. Whether your client manufactures and installs snow plows, water tanks, trailers, fire trucks, tow trucks or anything in between, our underwriters understand all of the unique insurance exposures they face and our program has a solution.

Eligible accounts

At least 75% of a company's revenue must be generated from truck equipment manufacturing or installation. Trailer manufacturers must generate at least 90% of their total sales through trailer dealers. Trailer dealers are not eligible for the program.
