

Amwins DNA is a suite of data and analytics capabilities – applying a robust, data centric approach to the placement of insurance in support of retail clients and insurance market partners.

While the Amwins DNA brand is new, the approach is not. It is foundational to how Amwins supports our industry-leading team, our retail clients and our markets.

Amwins DNA is

- Proprietary to Amwins
- An advanced sales and service tool
- The industry’s most in-depth collection of E&S insurance information
- Made possible because of our people, relationships, and role in the industry
- Part of who we are; we have prioritized data and analytics from our founding

Amwins DNA capabilities help

- Ensure we find the best solutions for our clients and their insureds
- Understand the risk appetite of our market partners for better placement decisions
- Build capacity and create new and exclusive products and programs
- Provide client deliverables, such as coverage benchmarking, equipping our clients with knowledge and tools that their insureds will value
- Efficiently identify expertise within our firm regarding tough classes of business to match market underwriting appetites within the Amwins platform
